BEACON978 HITCH LIGHT DATASHEET

Lind Equipment's **Beacon978 Hitch Light** delivers portable, high-performance jobsite lighting in a simple, truck mounted design. Built for fast setup, it attaches directly to your vehicle's hitch and plugs into the standard 120V outlet found in most new trucks. Its lightweight, compact build makes it easy to transport between projects, while the dual-heads output 45,000 lumens to fully illuminate work areas. With long lasting LEDs rated for over 50,000 hours, it reduces maintenance, downtime, and overall operating costs providing a powerful, plug & play lighting solution for any jobsite.

Features

- Easy to hitch and use.
- Lower total cost of ownership.
- Reduced downtime on jobsites.
- Comes apart in three pieces for easy storage & transport.
- The mast is adjustable to not interfere with the truck's tailgate.
- Lightweight and easily portable.
- Winch assisted 12ft mast.
- IP65 weather and wet location rated.
- 90V - 277V input range.
- Approved to UL & CSA standards.

**Meeting OSHA, MOL/WorkSafe, NEC, and CEC regulations.*

Applications

- ICI construction.
- Residential construction.
- Civil & infrastructure construction.
- Government & Military.
