THE BEACON LIGHT

Beacon Infinity Light Floodlight

The Beacon Infinity Light revolutionizes the very idea of a floodlight. It's bold and versatile with infinite attachment options. Gone are the days of multiple lights for every job, the high-efficiency LED Infinity Light is the **one light to replace all others**.

The ultra-portable, handheld light can be placed virtually anywhere with multiple mounting options. **Its compact size and weight make it the perfect light to fit in any tool bag**. The Infinity Light is built strong and durable to keep up with the demanding needs of the trade. All these features come in a sleek and innovative design from an award-winning company.
